This is the program Rebecca Matter and I discussed on our call last Tuesday. I hope you had a chance to listen in. On the call, Rebecca exclaimed how she loved to learn something once and then use it several times to make money. "Multiple streams of income" is how she put it.

Well, becoming an expert at social media marketing is like that. Make the effort to learn it once and get rewarded with at least 4 ways to generate streams of income.

Here's what I mean...

Perhaps the most lucrative way to make money with social media is to specialize as a social media expert. As a social media consultant, you can command consulting fees of \$2500 to as much as \$12,000 per month. You can charge fees like these once you know how to accomplish certain business goals through social media.

The second way is to add social media marketing to the services you already offer your clients. This is a perfect fit for online copywriters. You can up-sell social media work to your existing clients for additional fees.

Third, you can simply use your social media skills to find more leads and clients for your own freelance copywriting business. Hate cold-calling? So do I. Learn to use social media to connect with and engage your ideal prospect and you will have them calling you!

The final opportunity may have the biggest upside profit potential of all. If you have your own money-making website or a self-publishing project, you can use your social media skills to engage a wider audience and drive additional traffic to your site. Profit streams up to \$5700 per month are possible with little effort. Work at it full-time and collect even more.

How To Make Money As A Social Media Expert covers all four of these profit opportunities in detail.

Note that these four ways to make money are NOT mutually exclusive. You can - and should - implement several as soon as possible.

Imagine what that would do to your income!

I developed *How To Make Money As A Social Media Expert* with these four income opportunities in mind. I show you what you need to know to implement each, plus how to do it, in an easy to understand, step-by-step fashion.

The program is not like many of the other social media programs out there. It is NOT the “one trick pony” showing you one way to make money on one social media site.

This program is a comprehensive review of what works, as well as what doesn't, on all the major social media platforms.

With *How To Make Money As A Social Media Expert* you get one program, but 4 ways to profit. How cool is that?
